

**Supporting Care & Compassion
at End of Life in Nursing Homes**
A continuous learning programme

Caru – Supporting Care & Compassion at End of Life in Nursing Homes is an initiative of Irish Hospice Foundation (IHF) in partnership with All Ireland Institute of Hospice & Palliative Care (AIHPC) and the Health Services Executive (HSE).

Caru is a continuous learning programme that will support and empower nursing homes and their staff in the delivery of palliative, end-of-life, and bereavement care to residents, leading in turn to enhanced quality of life for residents, a good death, while easing the bereavement process for families and staff.

Caru focuses on enabling cultural change within nursing homes, encouraging openness to talk about and plan for end-of-life care with residents, families and staff.

It is free, evidence-based, expert, and will build on the Nursing Homes' existing capability to enhance staff confidence with planning for and reviewing care given at end-of-life.

Caru will bring together AIHPC Project ECHO for nursing homes with IHF's quality improvement training for nursing homes.

Regional Leads for Nursing Homes

- Deliver Quality Improvement Workshops
- Co-ordinate Caru Regional Networks
- Support networking & liaison

CHO 4 Regional Lead for Nursing Homes
